Horizontal Tests — session 1

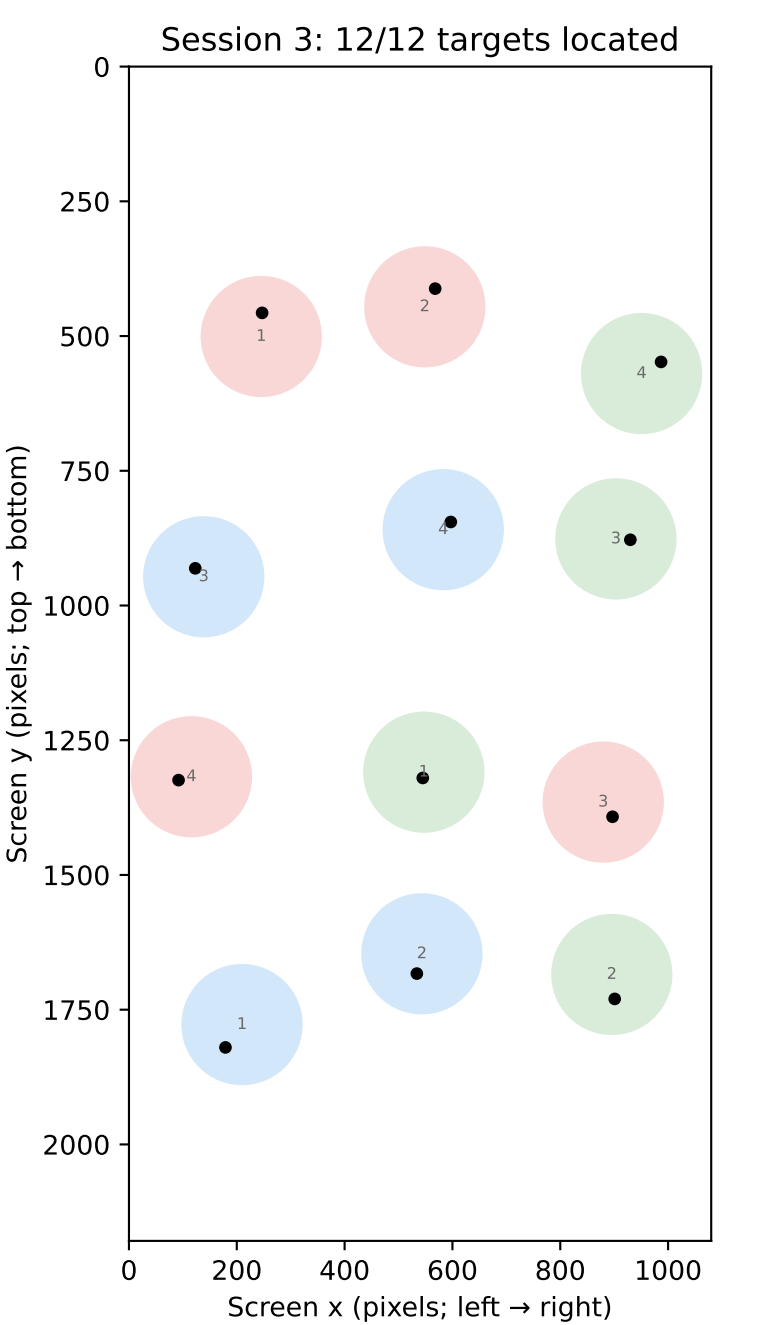

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 2

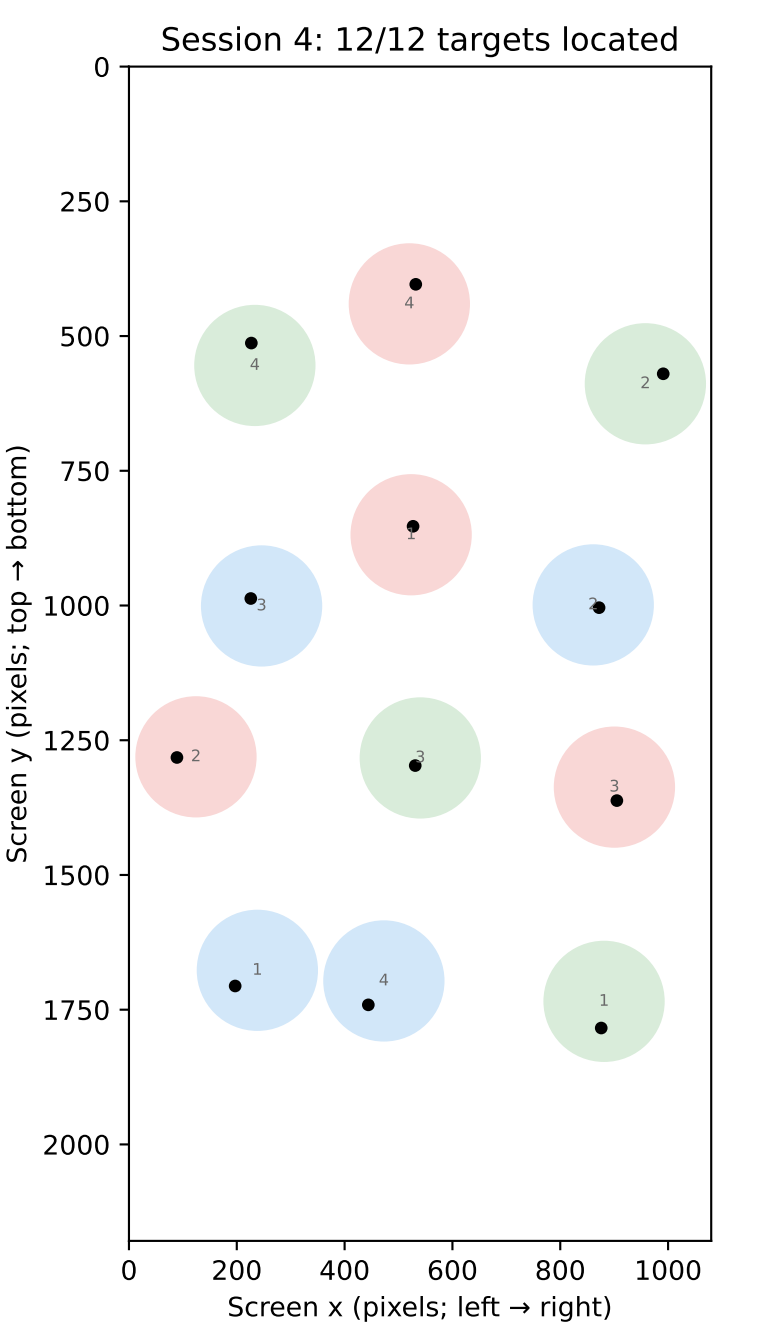

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 3

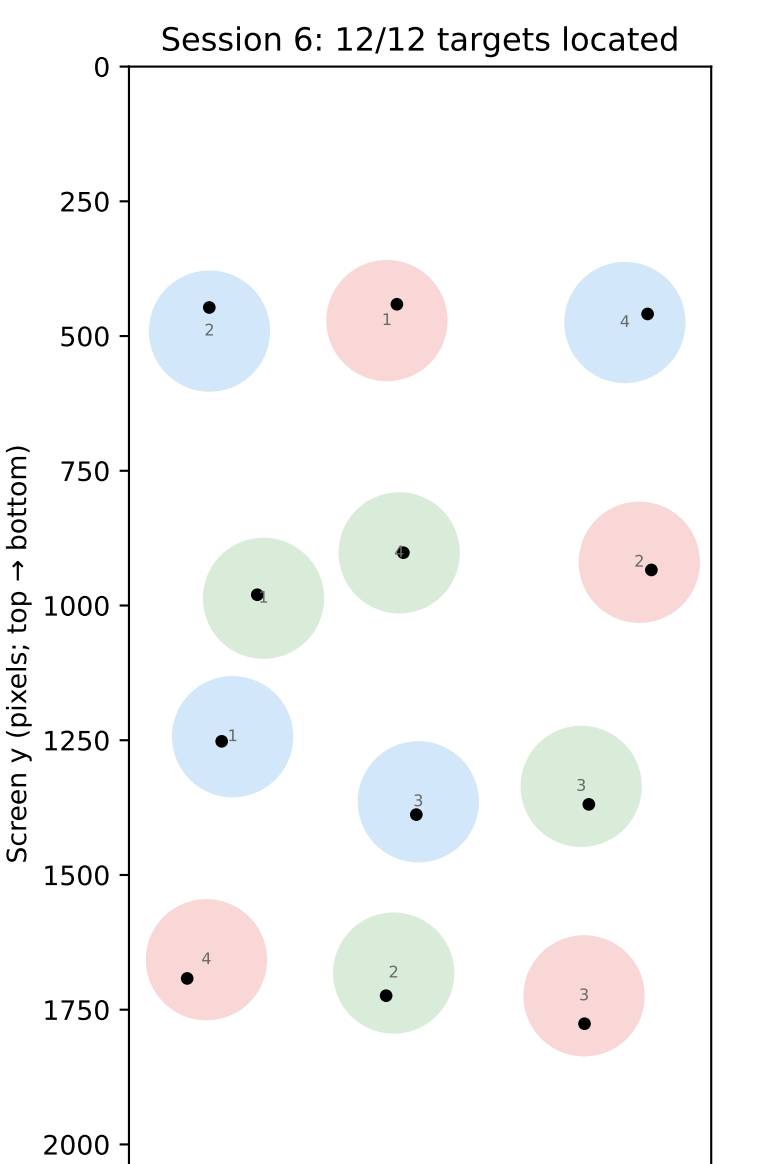

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 4

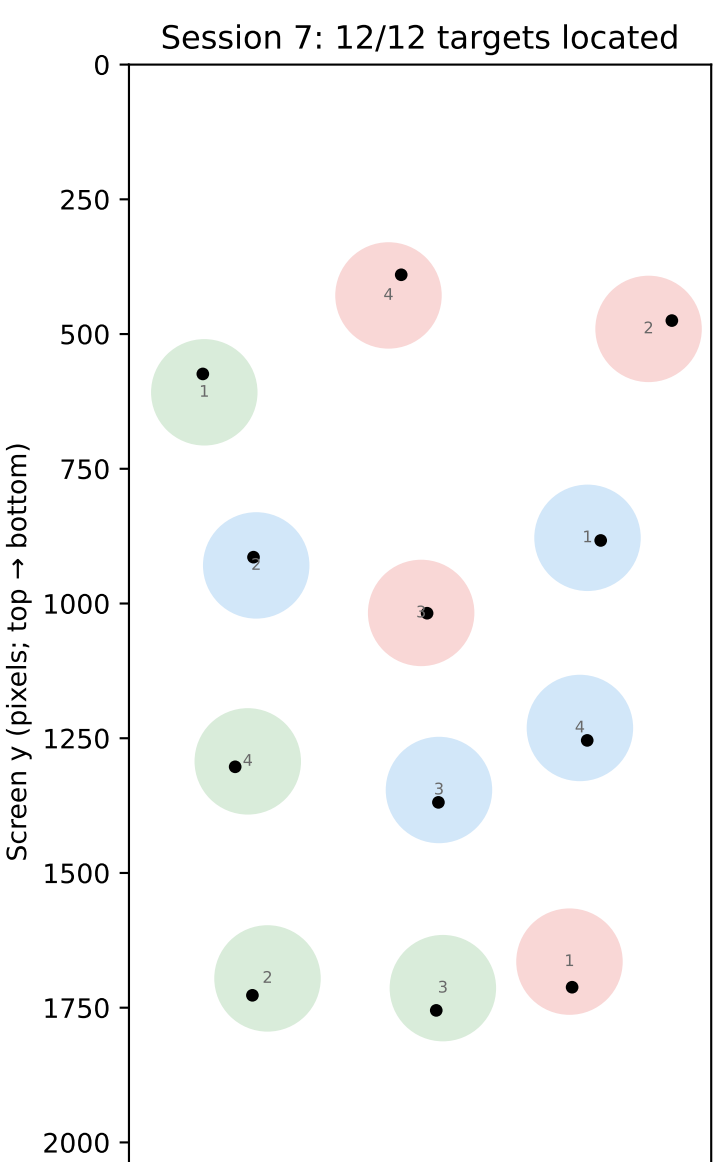

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 6

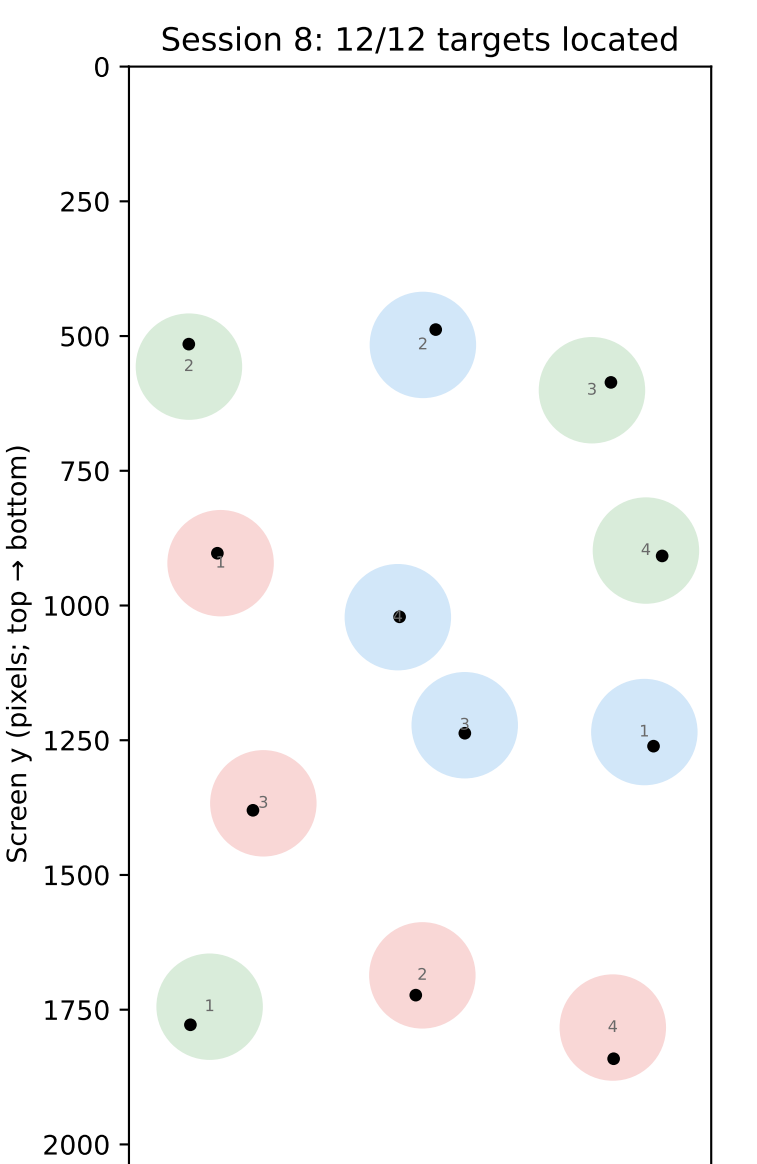

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 7

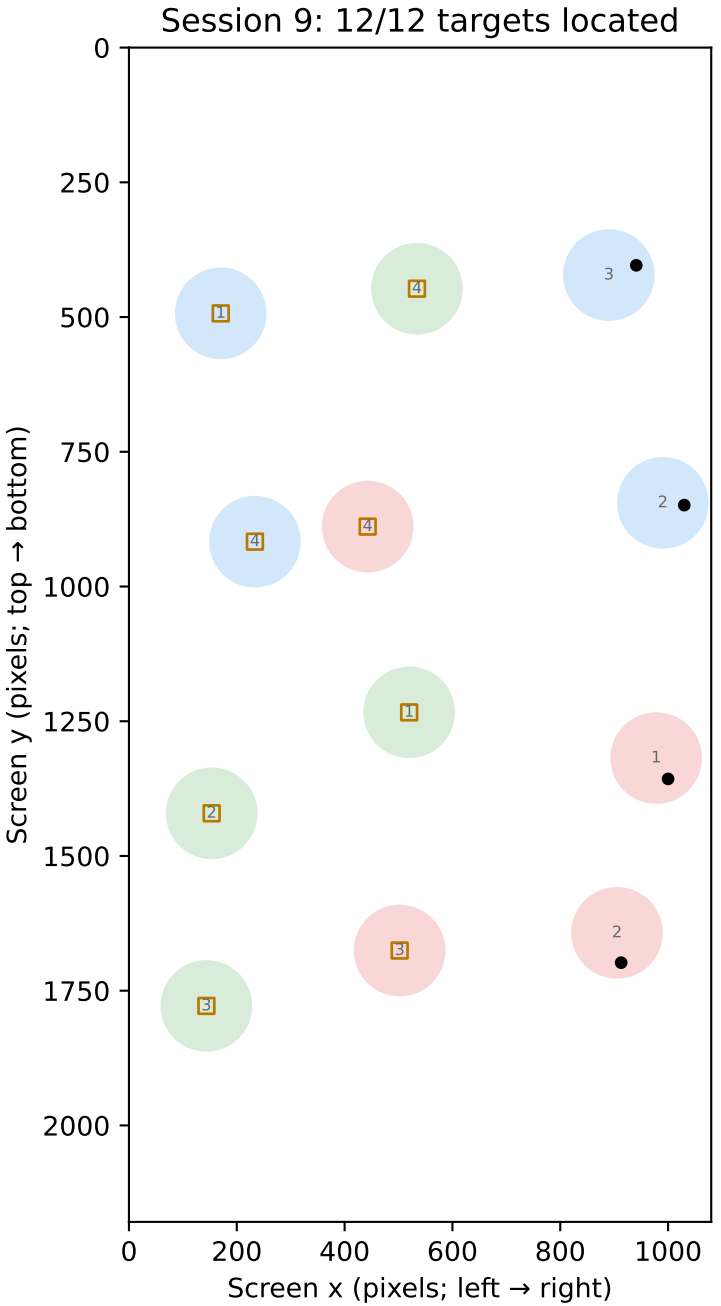

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 8

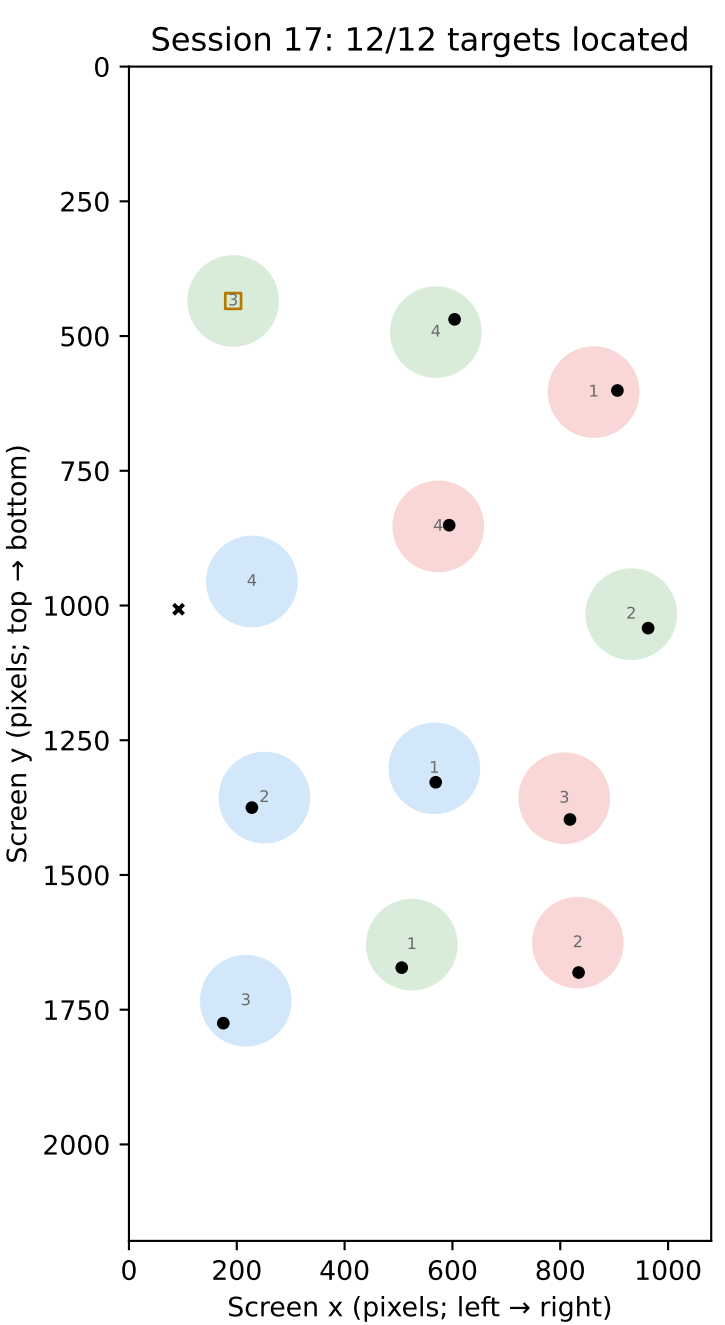

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 9

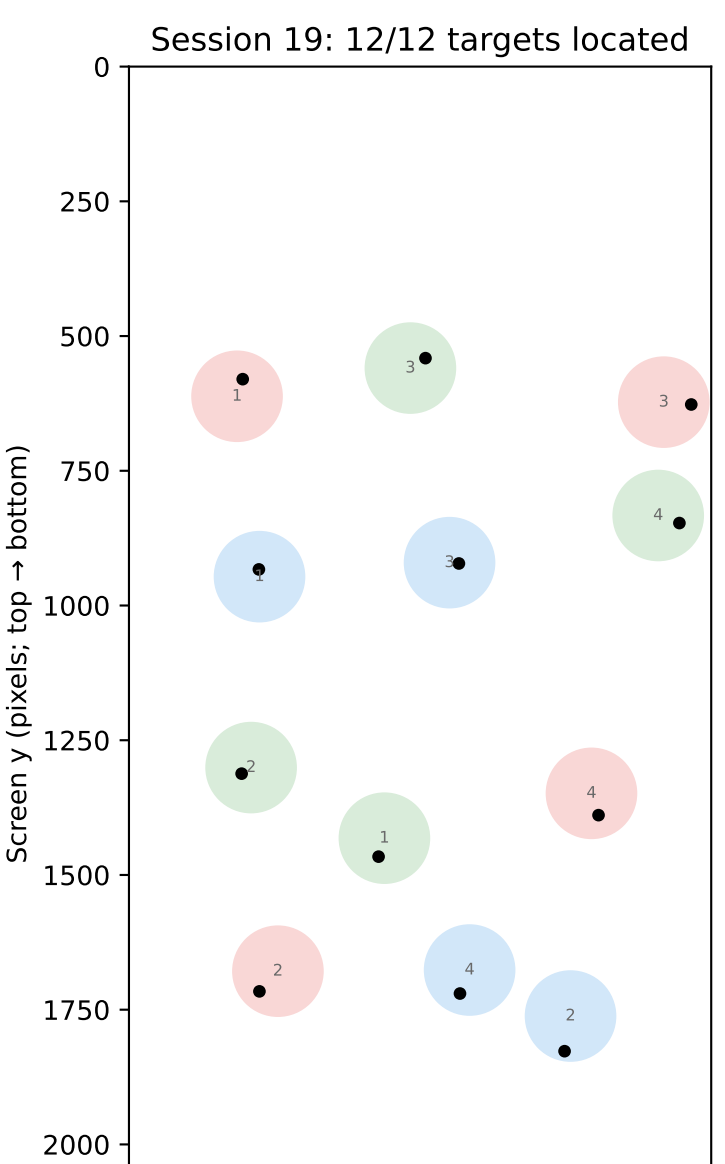

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 4 (4 hits); no-touch records: 8.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 17

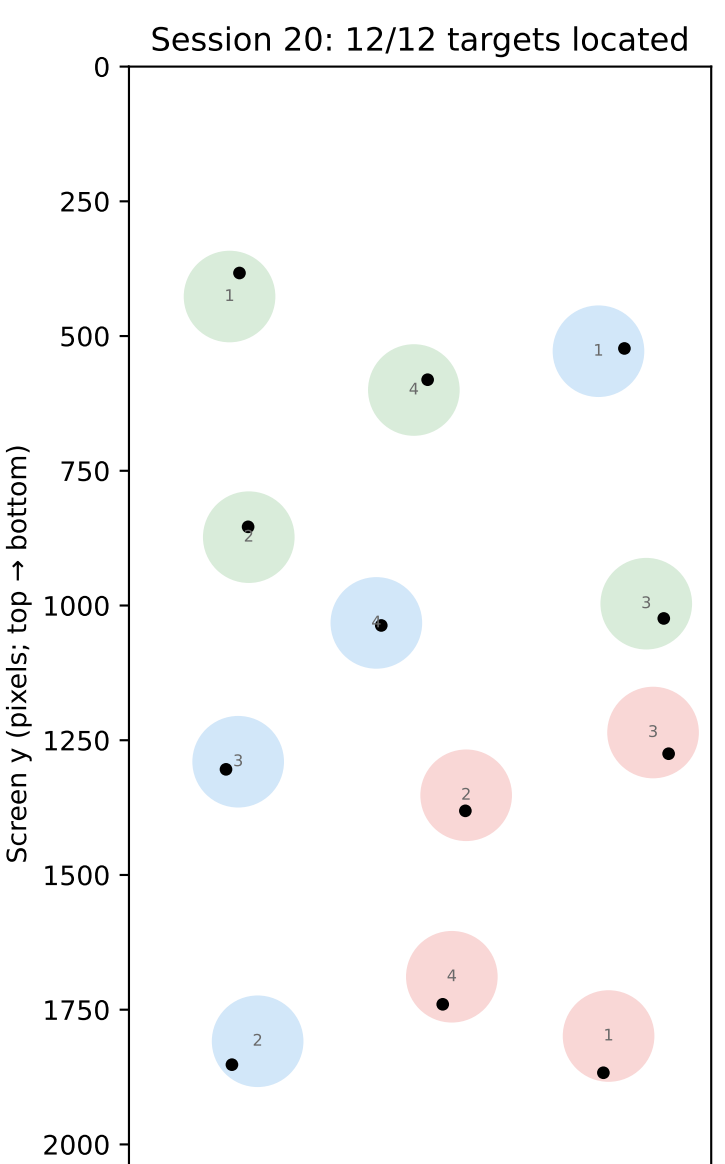

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 11 (10 hits); no-touch records: 2.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 19

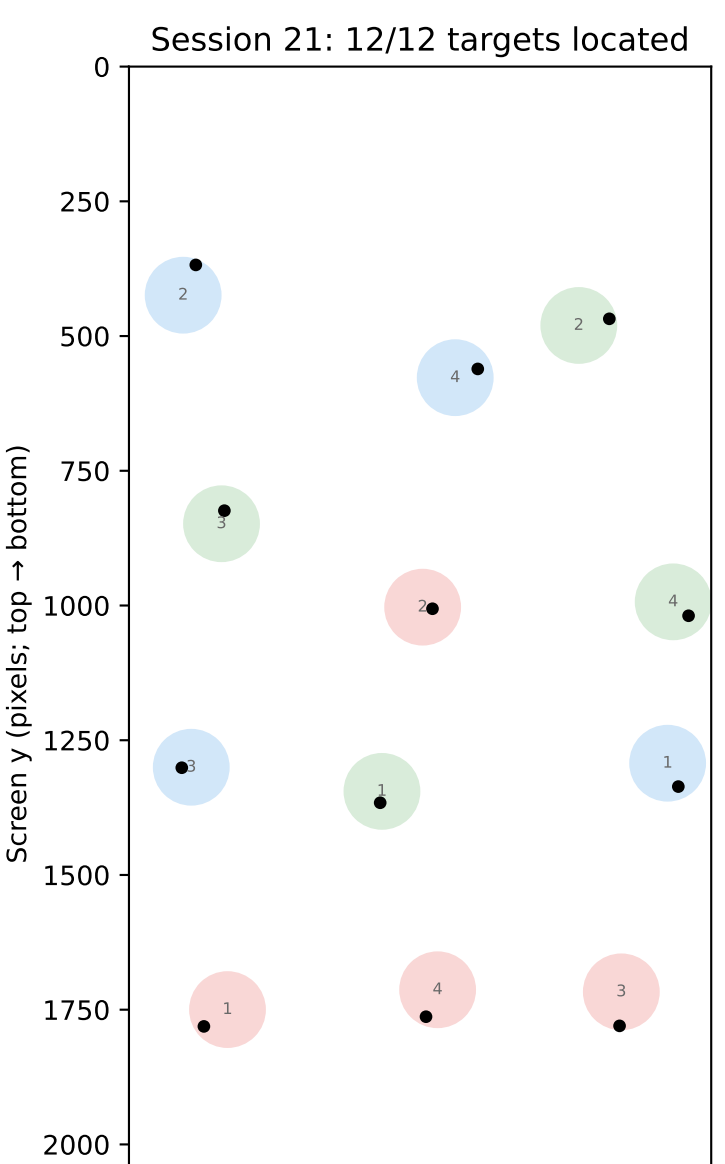

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 20

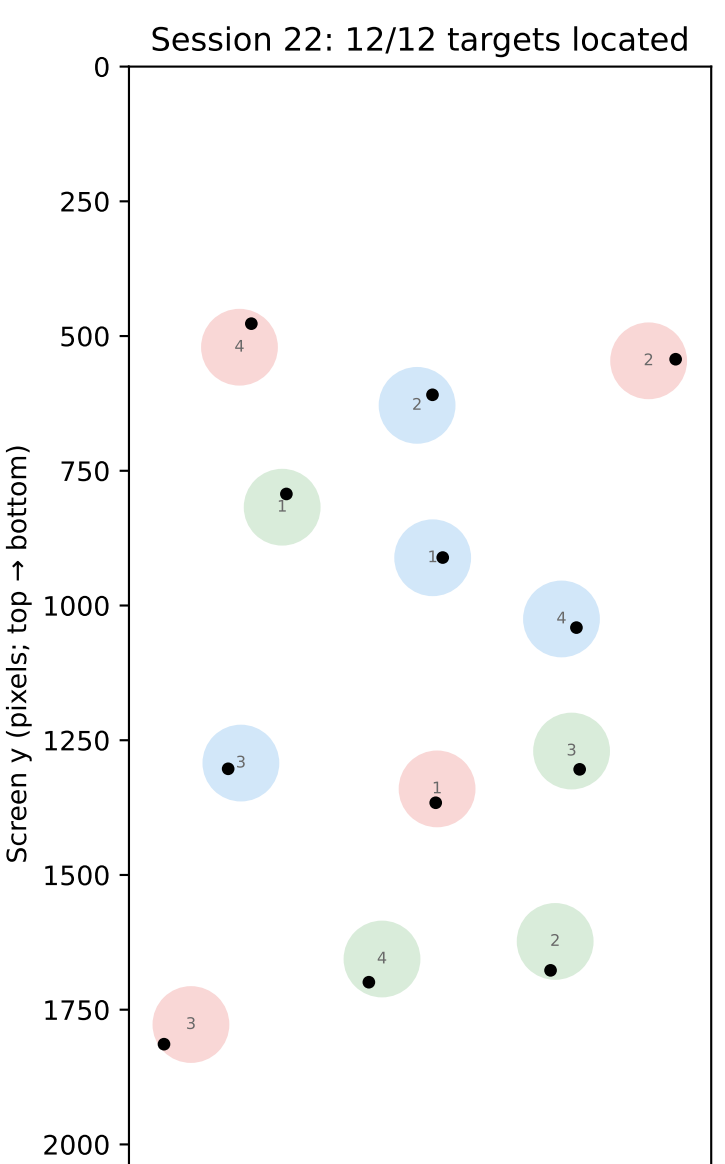

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 21

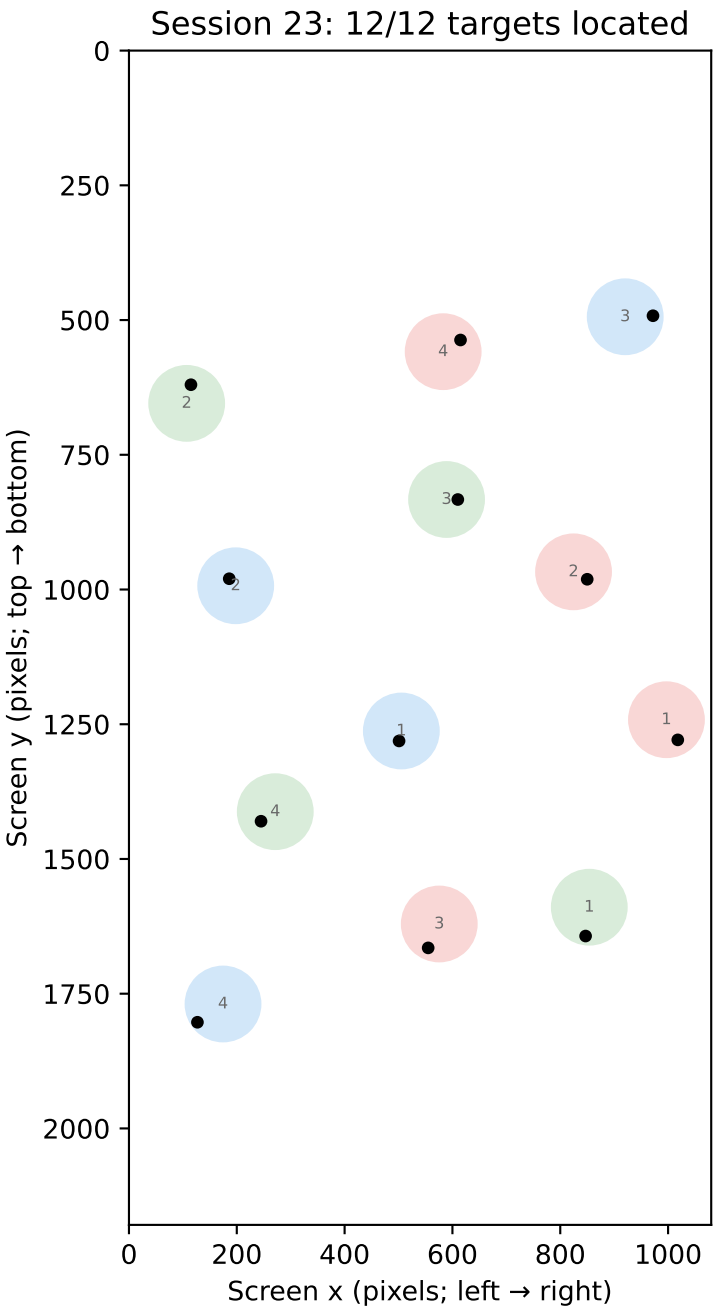

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 22

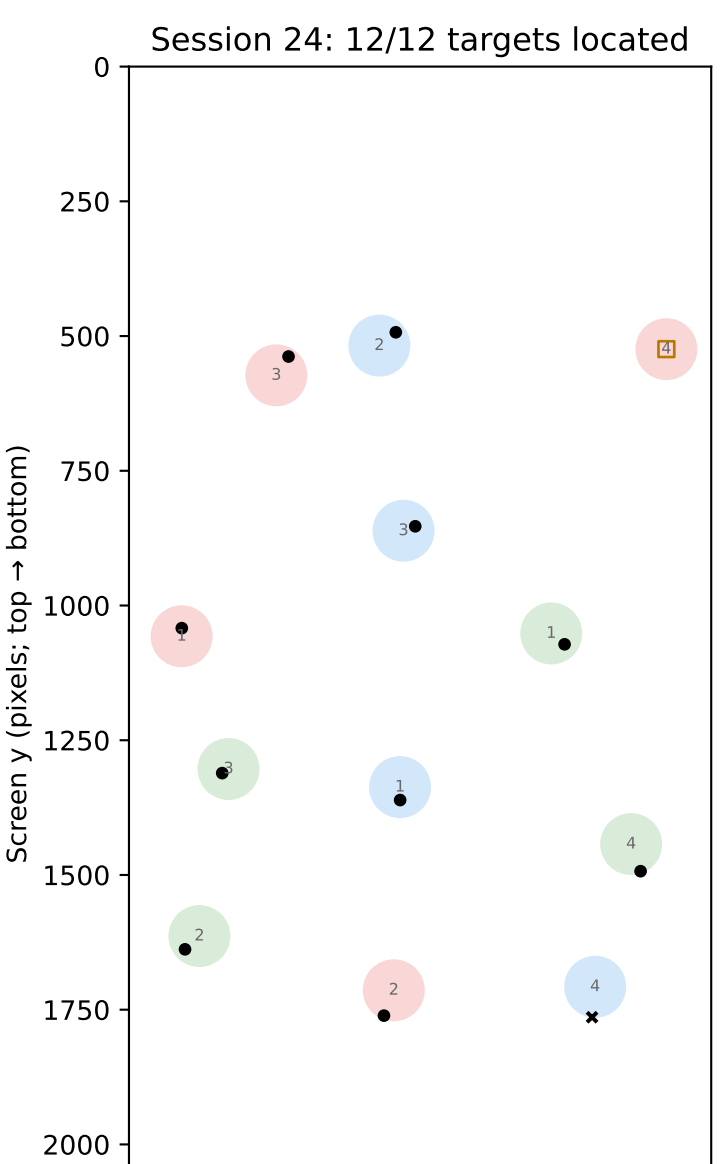

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 23

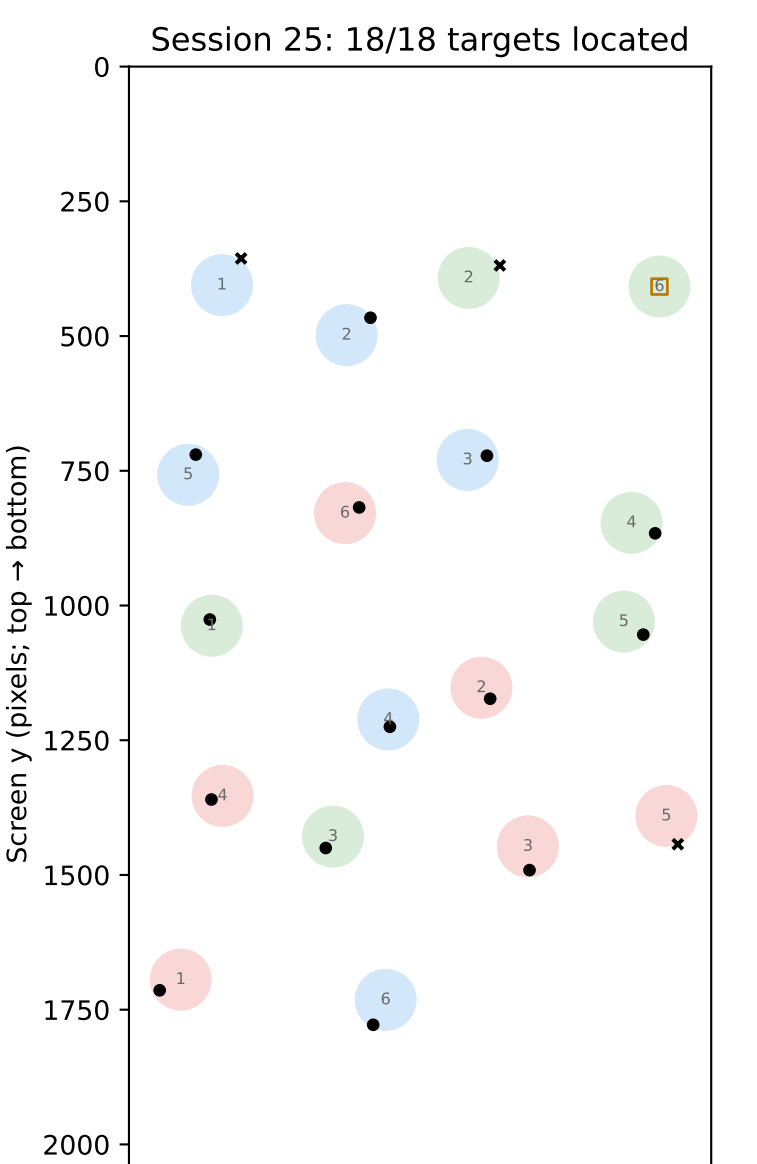

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 12 (12 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 24

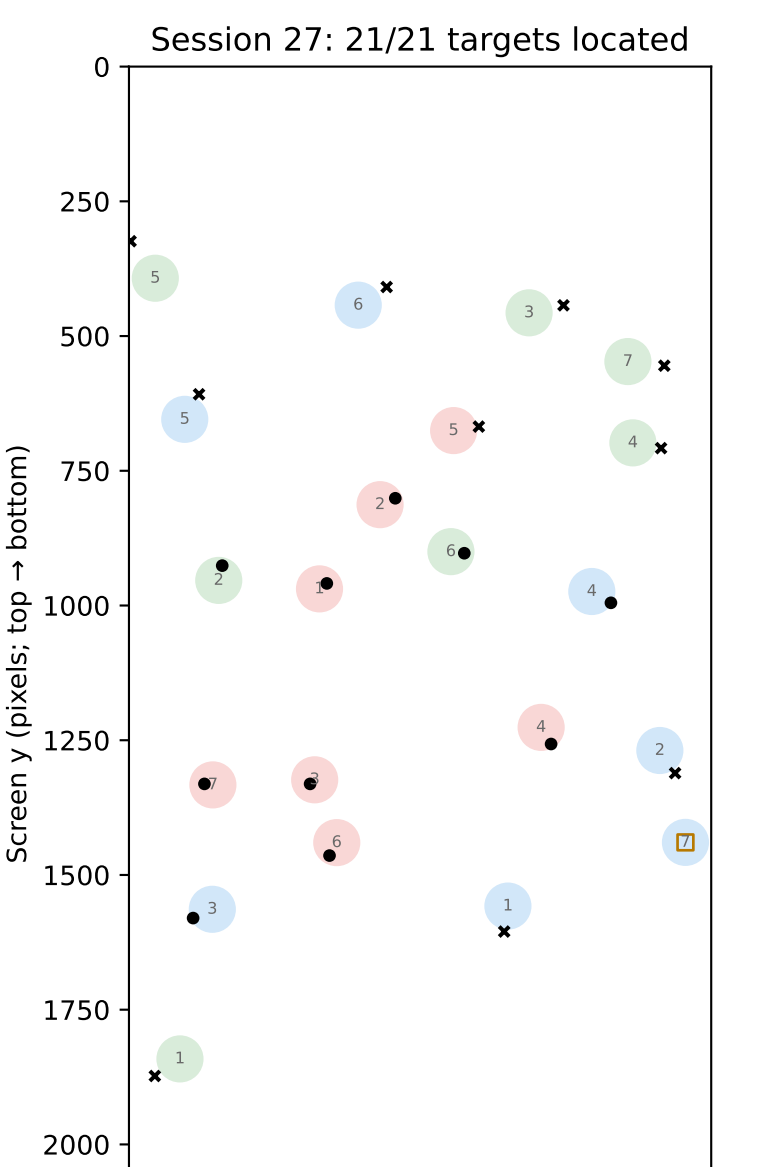

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 11 (10 hits); no-touch records: 2.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 25

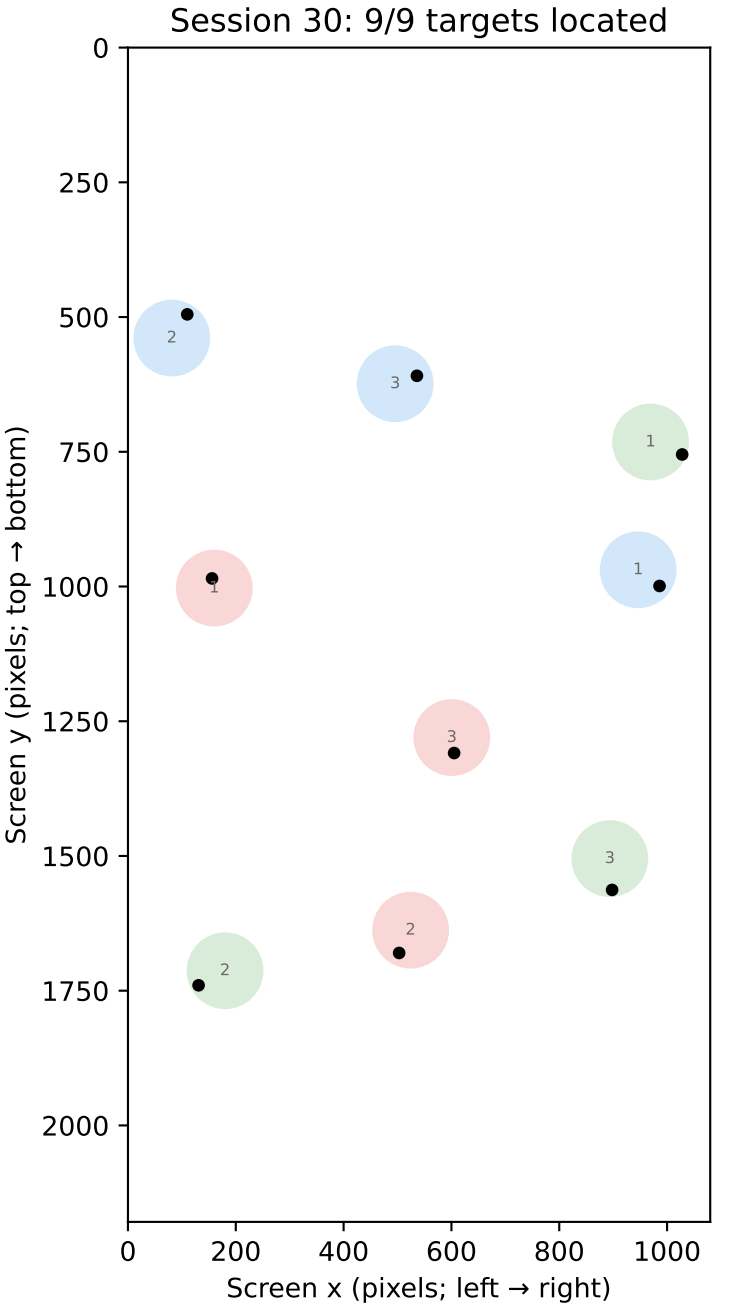

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 17 (14 hits); no-touch records: 4.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 27

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 20 (10 hits); no-touch records: 11.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.

Horizontal Tests — session 30

Colored circles = targets; dots = app hits; crosses = app misses.
Shown contacts: 9 (9 hits); no-touch records: 0.
Hollow square = no-touch only; purple ring = completed-target repeat.
Only recorded positions shown; missing targets not reconstructed.
One marker per session/target: first hit, otherwise first miss.
